Restore your headlights to as new condition!

As your car gets older, the plastic headlight lenses deteriorate and turn to a dirty yellow look. This is caused by abrasion and UV exposure and leads to a significant reduction in light output.

- Kit includes:**
- 2 x Bottles of Yellow-X cleaner
 - 1 x Bottle of UV Clear lens sealer
 - 5 x Packs of wet and dry sandpaper
 - 10 x Application cloths and gloves

The easy-to-use DIY kit for restoring plastic headlamps to as new condition!

Do your headlights look like this?
